We're Golfin' & Partyin' with a Purpose for - Second Chance Forge

Second Chance Forge provides free classes for veterans, first responders, and their families to learn blacksmithing skills. Our clients have experienced PTSD, anxiety, depression, or have reduced social interactions. Clients also must be physically capable of using a hammer (which can be safely done from a wheelchair). Blacksmithing requires people to work together with dangerous material which requires trust, communication and engagement to create projects successfully and safely. The purpose is to get people together with shared experiences and possibly shared issues in life. The lessons learned in blacksmithing can be implemented in everyday life to make everything more meaningful.

Musical Entertainment by:

Friends of Dave Ellis

Robert Dahms, Kerry Tucker, Rich Fricke, David James Genac
